

PRESIDENT'S CIRCLE

Come Join Us!

Club de Madrid offers like-minded individuals, foundations and corporate actors the opportunity to join us and make a difference in advancing democratic practice and leadership where it is most needed.

The President's Circle provides this opportunity. Those who join this select visionary group share our values and goals and, together with our Members, commit their support to forging local and global change towards a more inclusive, peaceful and sustainable society. They can contribute to our agenda and increase their access to

unparalleled thought leadership on global and national affairs whilst networking with a unique group of world leaders. The President's Circle is, thus, a unique platform for an open exchange of views and experiences at the highest level. Its Members are encouraged to engage with Club de Madrid leaders in various ways.

With a four-tier structure and incremental levels of benefits in terms of access and visibility, the Presidents' Circle meets once a year in an Advisory Session with our Board of Directors.
